

Oscar Otter

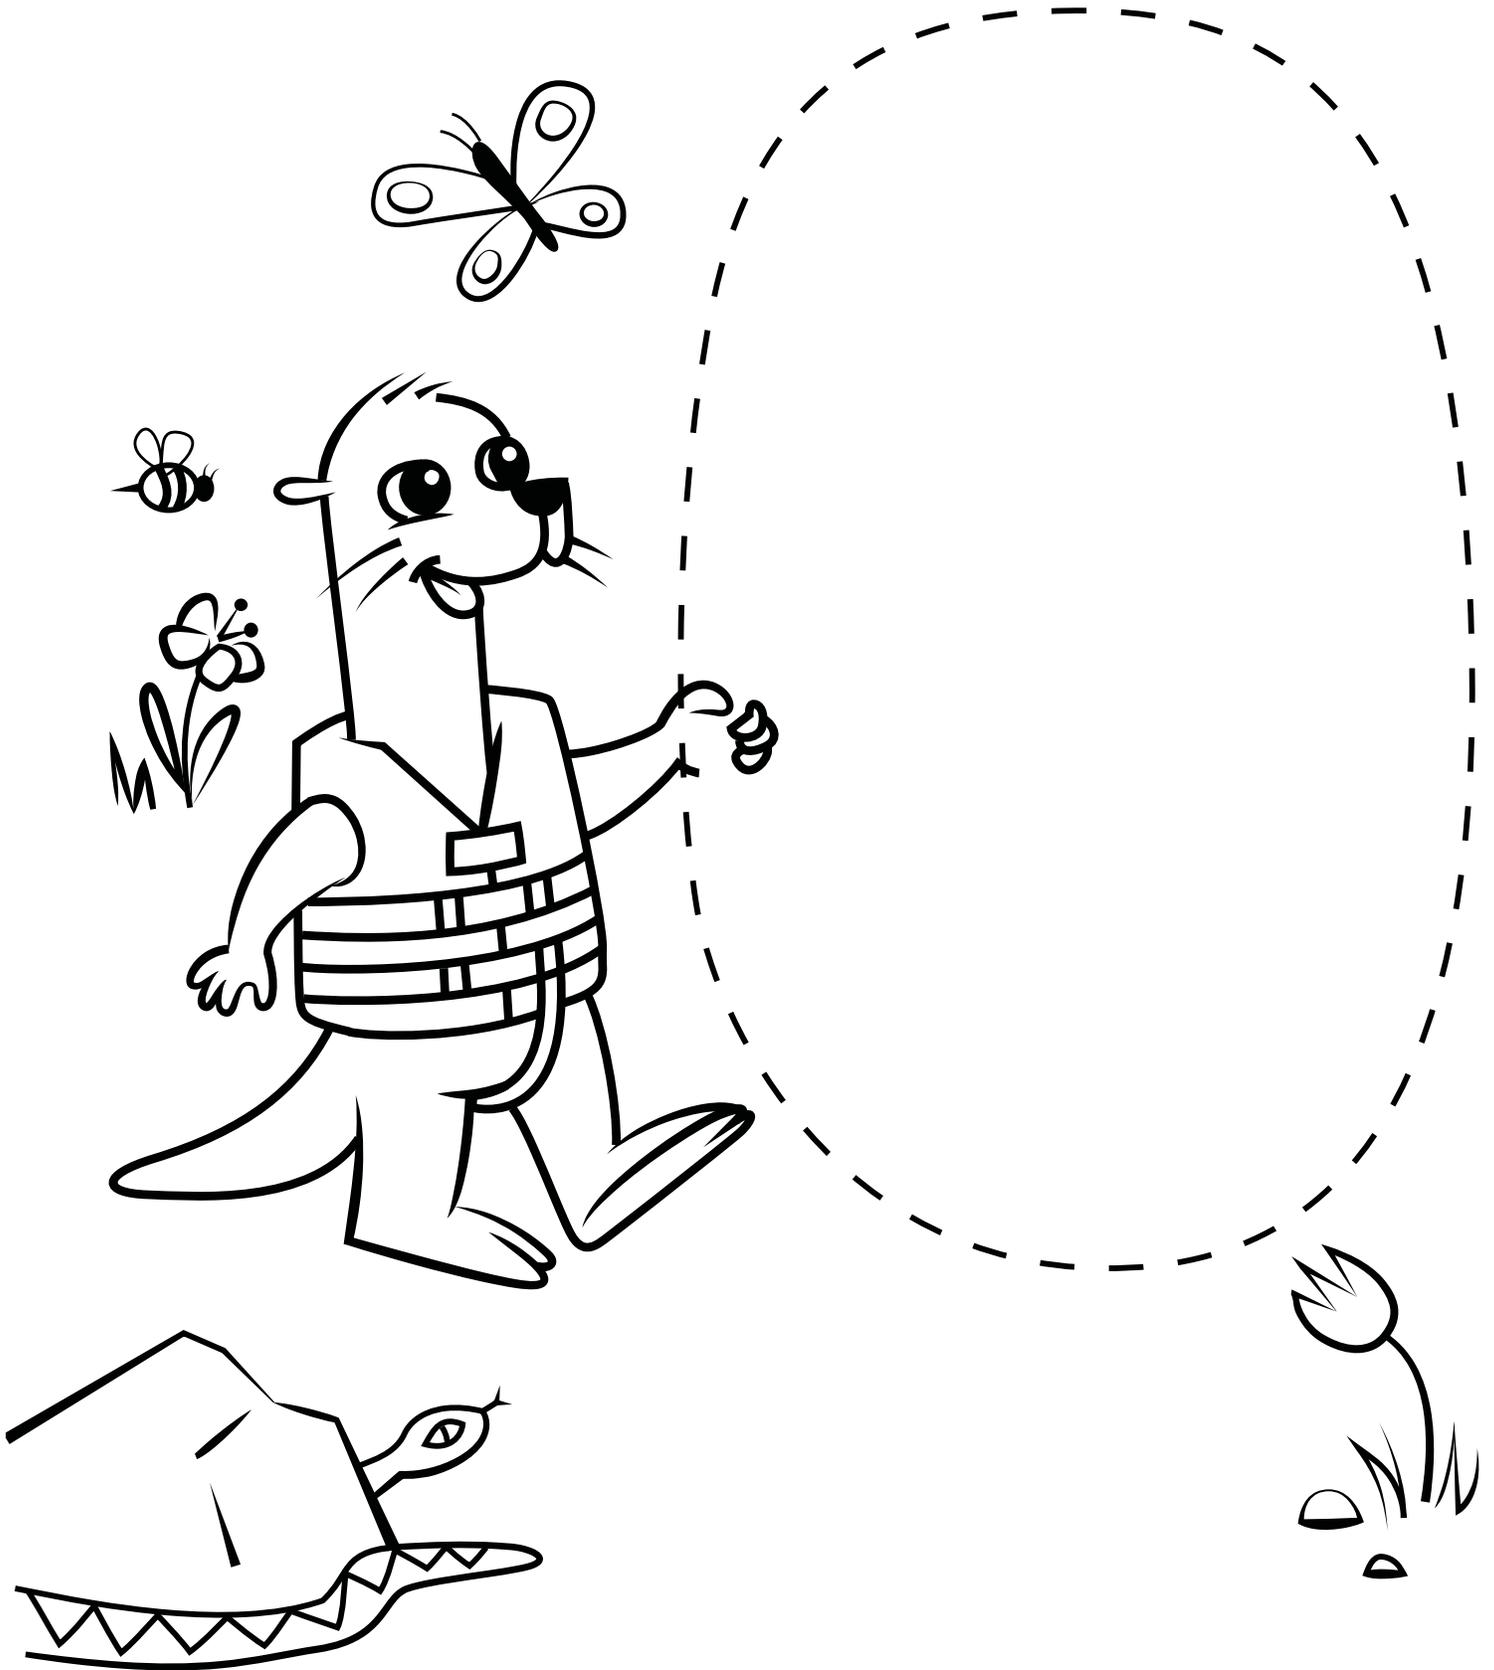

Name: _____

1. Let someone know before you go!

2. Don't go alone when you leave your home!

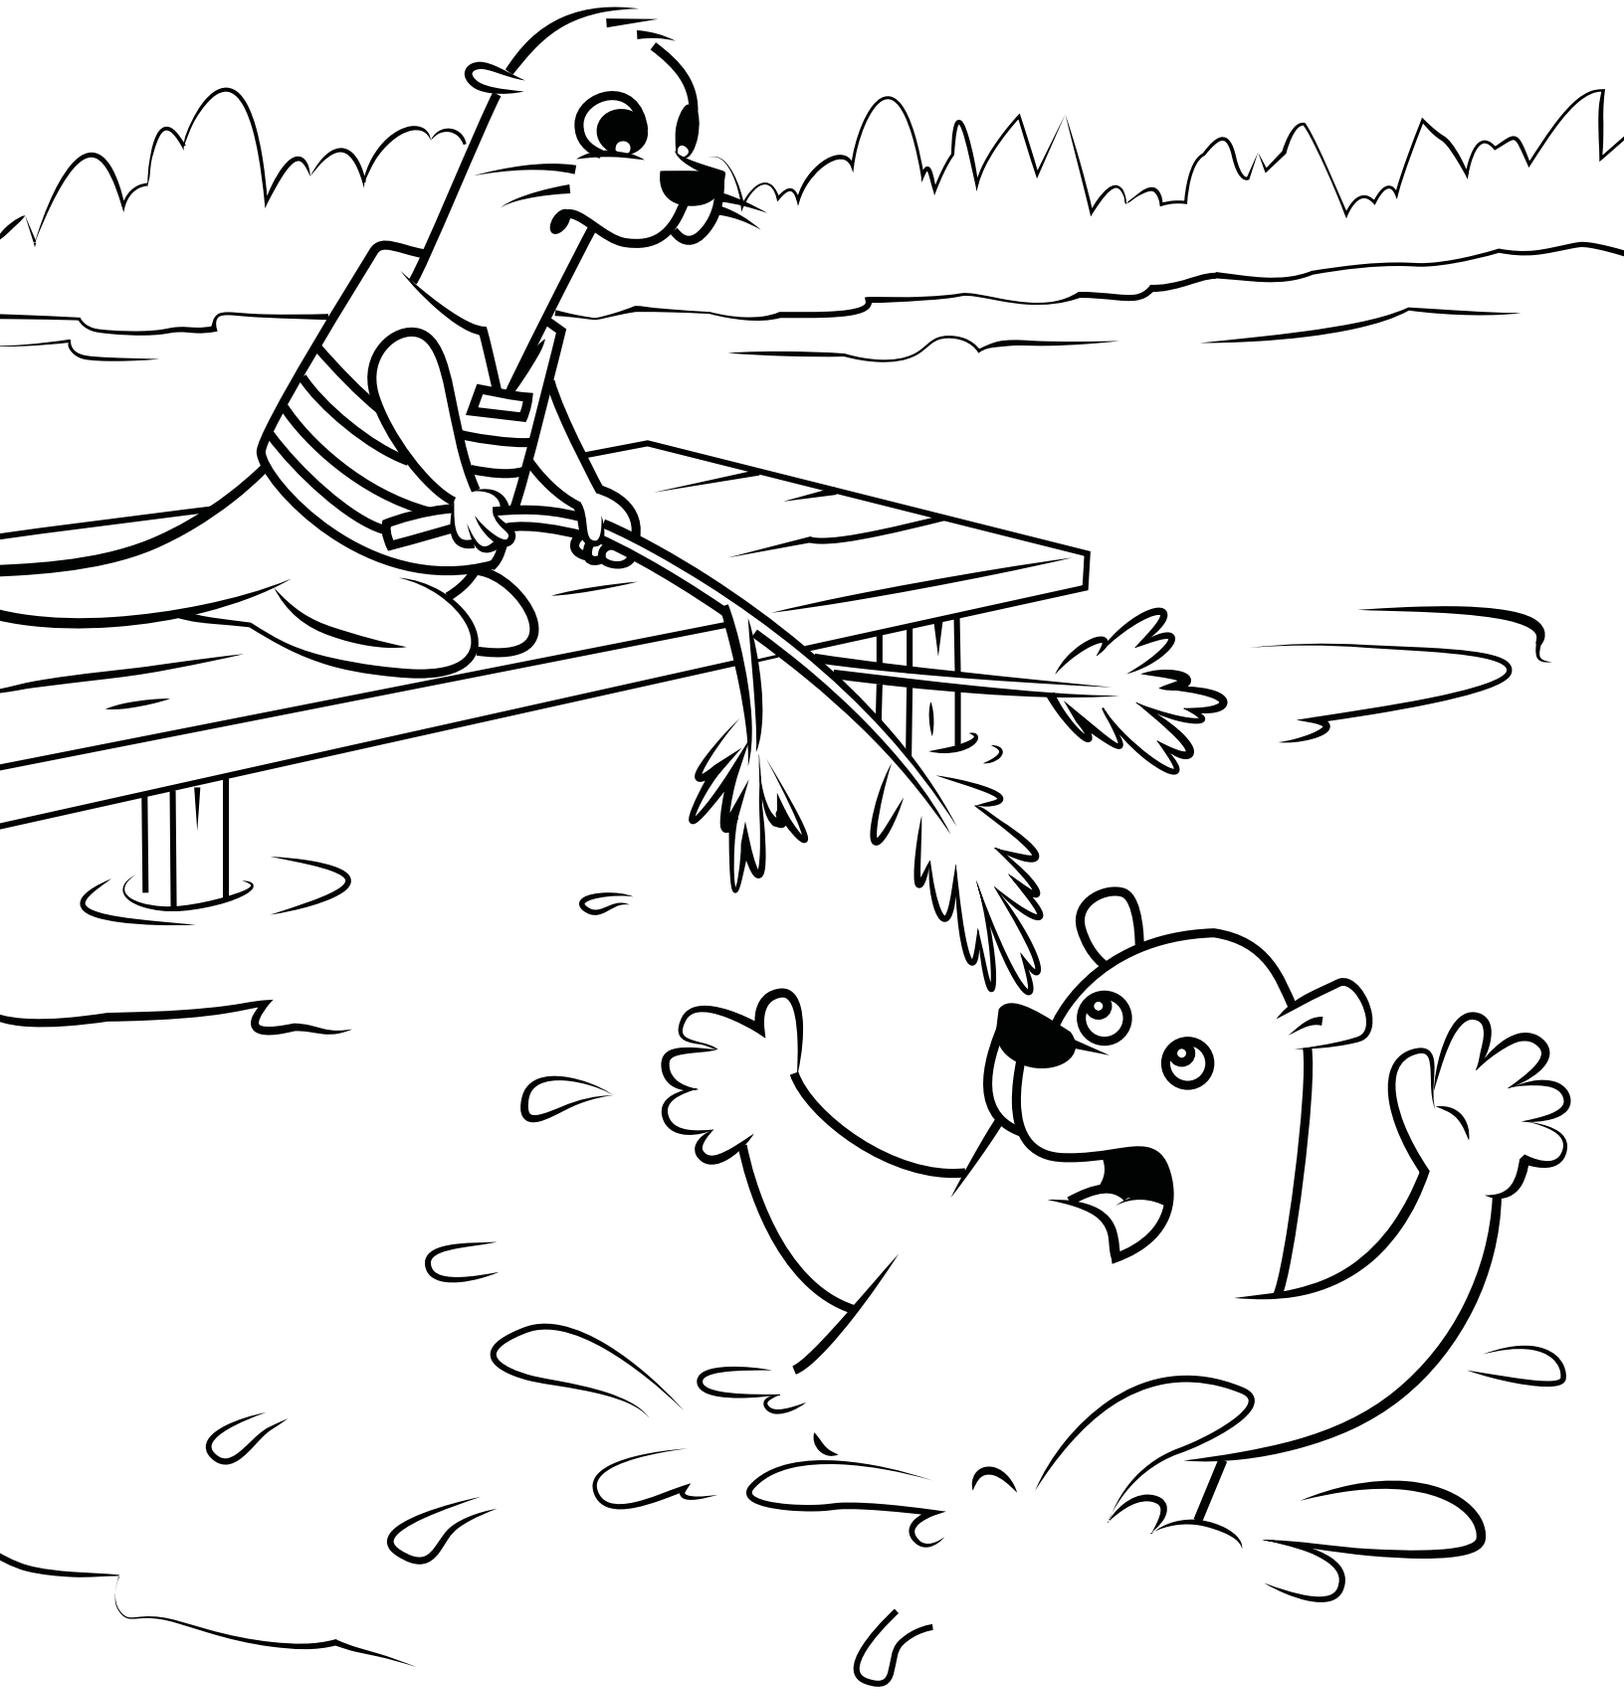

Draw a grown-up in the circle to go with Oscar.

3. You otter be in a good PFD!

**A PFD is a Personal Flotation Device (Lifejacket).
Make sure it's US Coast Guard Approved!**

4. Reach from the beach and don't jump in if someone can't swim.

Draw a PFD on Oscar's friend.

5. You otter scout before you go out!

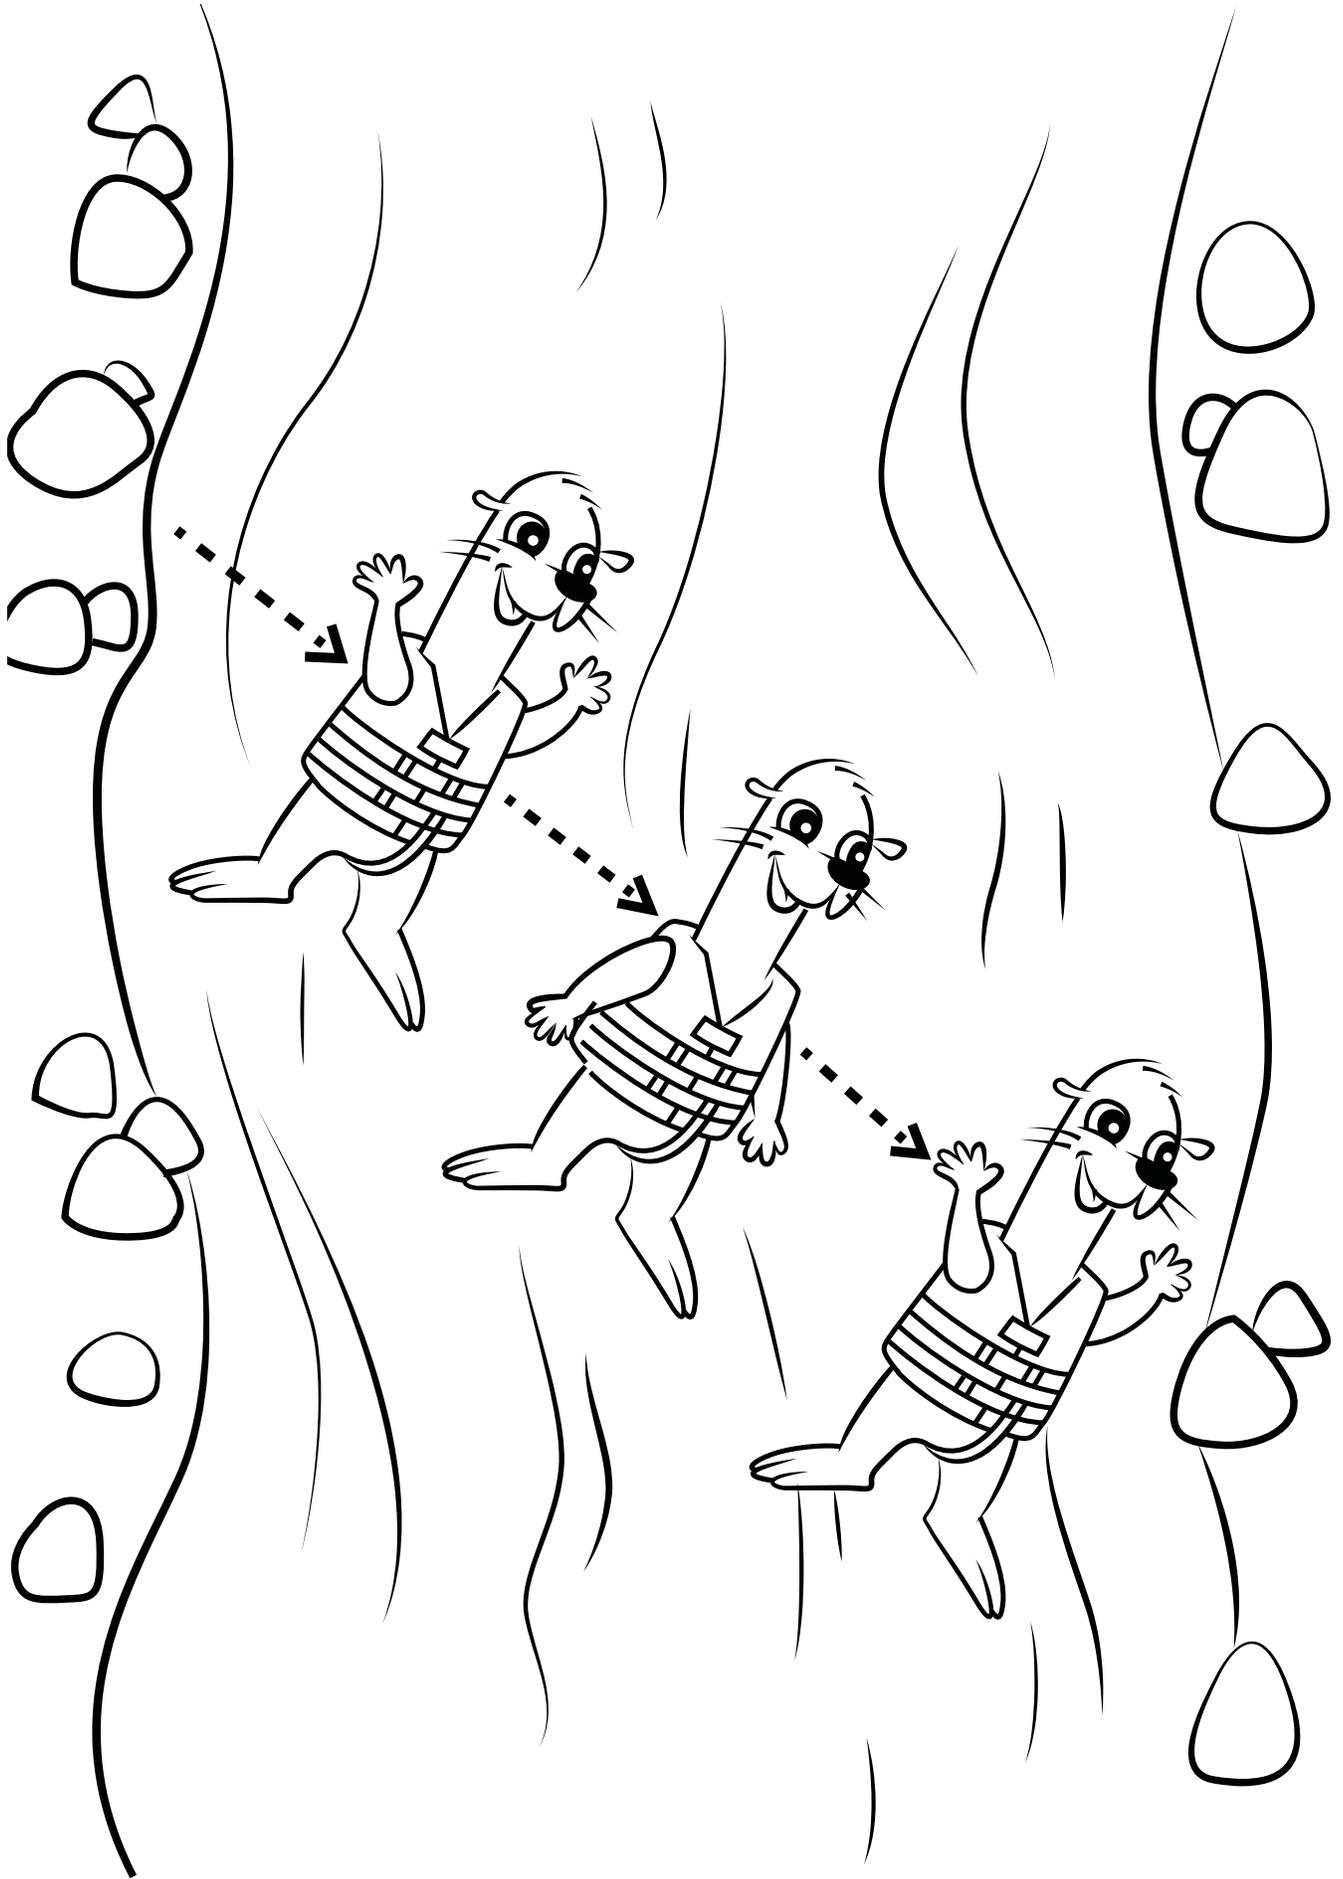

Name 3 dangers Oscar might see.

1. _____ 2. _____ 3. _____

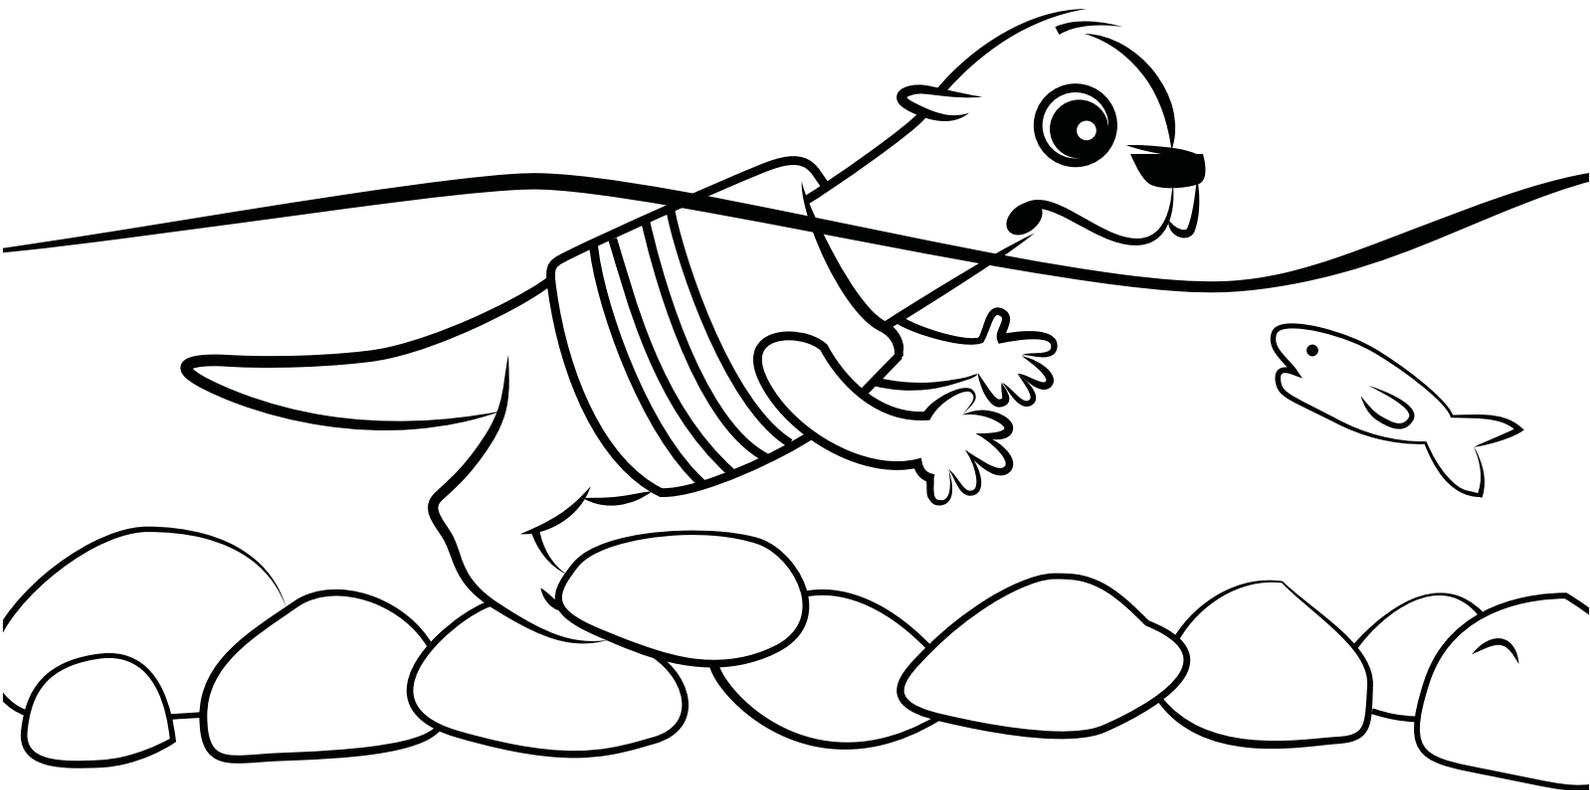

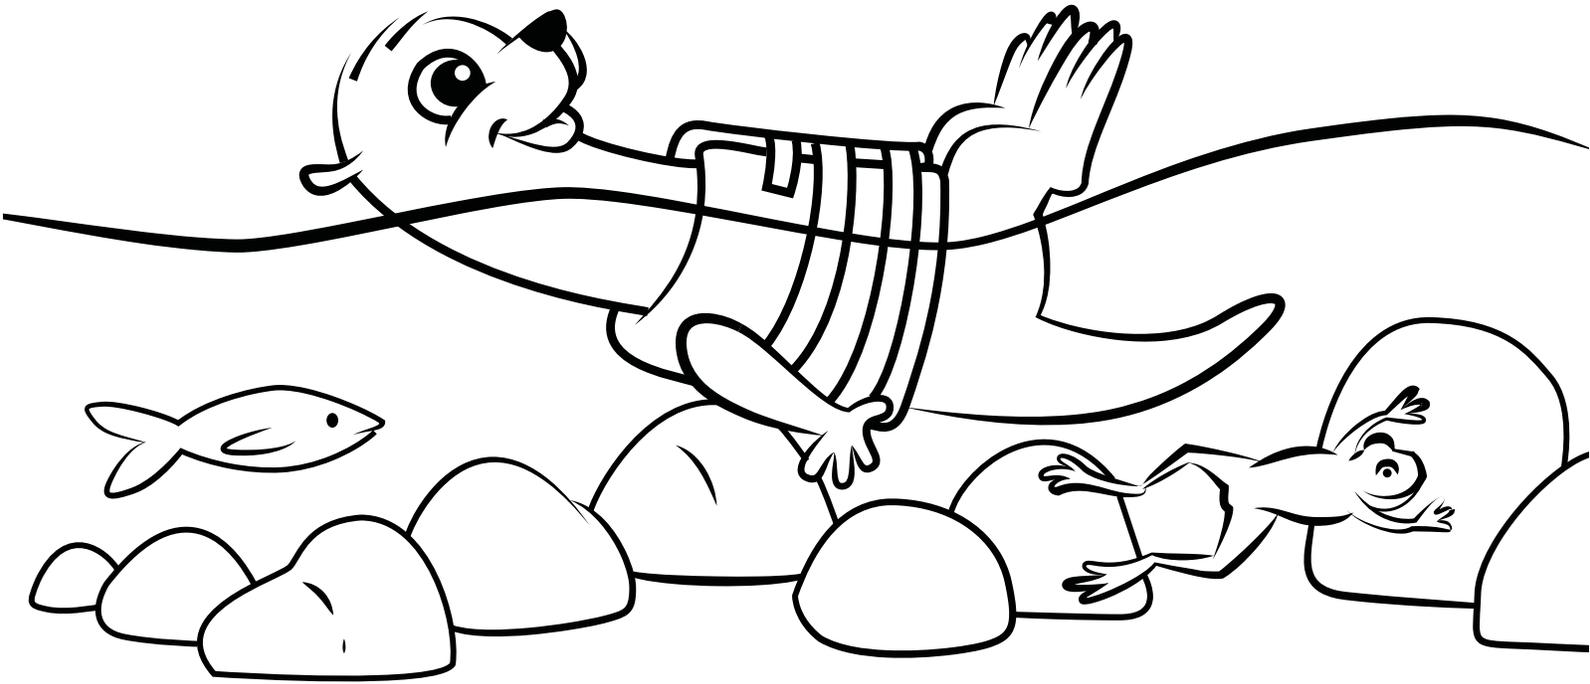

6. You otter scam if you see a dam!

7. On your back to swim if you get in!

**8. You otter not stand until
you're on land!**

Oscer says:

1. Let someone know before you go
2. Don't go alone when you leave your home
3. You otter be in a good PFD
4. Reach from the beach and DON'T jump in if someone can't swim.
5. You otter scout before you go out
6. You otter scam if you see a dam
7. On your back to swim if you go in
8. You otter not stand until you're on land

Acknowledgements

The author would like to extend his sincere gratitude to Jen Miller, Rescue 3 International, and Lena Podesta for their hard work and dedication in making it possible to complete this program, and for just believing in the program and its potential. A special thanks to Rita Dane for her technical assistance with the lesson plan, and my appreciation to all the family, friends, and peers that offered encouragement along the way.

About the Author

Bill Davis worked as a firefighter, rescue specialist, and rescue instructor. He taught flood and river rescue extensively through Rescue 3 International, both in the United States and abroad. Having been on many rescues and recoveries during his career, he felt strongly about the need to educate people about the dangers associated with moving water. He envisioned a program to begin educating children at an early age with knowledge they could grow up with, and that would ultimately have an impact on the number of water related fatalities in years to come. In 2008, he was forced to retire from firefighting and rescue instruction due to a debilitating disability. That same year he was awarded a Lifetime Achievement Award for contributions to Rescue 3 and the rescue industry. However, even after retirement, he never lost sight of that vision to develop this program, and this work is the culmination of that goal.

About the Artist

Lena Podesta works as an illustrator and animator in beautiful, soggy Portland, Oregon. She loves drawing, a good story, and swimming (safely of course). Find out more about Lena at www.lenapodesta.com or follow her on twitter @lenapodesta

About Rescue 3 International

Rescue 3 International is the world's leader in technical rescue curriculum development and accreditation with over 1500 certified instructors in 52 countries around the world. Over the past 35 years Rescue 3 instructors have trained over 250,000 students, many of whom are Professional Rescuers, River and Mountain Guides, and Military Personnel.
